

AIRSHARES ELITE AT A GLANCE

Aircraft

Cirrus SR22

All aircraft in the AirShares Elite program are fully equipped Cirrus aircraft. With a 310 hp engine, 185kt cruise, and 1000nm range, the AirShares Elite fleet allows our Owners unprecedented opportunities to enhance their lifestyle.

Avionics

A state of the art “Glass Cockpit” avionics includes the Avidyne Entegra Primary Flight Display, a second Avidyne Multifunction Display which incorporates Navigation, real-time XM Satellite weather, Terrain Alerting and Warning System, Skywatch Traffic Alerting, CMax Electronic Charts, and Graphic Engine Monitoring. Dual Garmin 430s and the S-TEC 55X autopilot provide NAV and GPS tracking, altitude and rate of climb control, and full approach and glide slope coupling capability.

Safety

The Cirrus Aircraft Parachute System (CAPS™) and TKS ice protection system provide a level of safety unequalled in any other general aviation aircraft.

Fleet

Availability

The AirShares Elite goal is to provide you availability approaching that of a single-owner aircraft. The AirShares Elite program provides each Owner with access to a fleet of new Cirrus aircraft throughout the East Coast. To meet this goal, AirShares limits the hours sold on a single airplane to 600 hrs / aircraft / year.

Locations

Aircraft are currently available at many airports on the East and West coast here in South Florida. AirShares Owners may also fly any Cirrus in the National fleet - including Atlanta, Boston, Birmingham, Chicago, Detroit (Pontiac), Indianapolis, New York City, Ohio, Philadelphia, Tampa and Washington DC.

Ownership Options

Equity Ownership

Just as with whole aircraft ownership, Owners may elect to become an FAA-registered Owner of their aircraft.

Equity Finance

Owners may also elect to finance their equity share through an exclusive relationship with Boston Aviation Finance, LLC.

Insurance

Aircraft

AirShares Elite insures each aircraft for its full replacement value.

Liability

AirShares Elite carries a no sub-limit \$1,000,000 liability coverage, with each AirShares Elite Owner as a named insured.

Scheduling

Booking

AirShares Owners can book flights on any aircraft in the AirShares Elite fleet nationwide through our Atlanta office 24 hours a day / 7 days a week. Flights can be booked up to one year in advance or with minimum notice.

Hours / Year

The number of hours each Owner may fly per year are determined by their AirShare (1/8 AirShare = 75 hrs/year; 1/6 AirShare = 100 hrs/year).

Overnights

There is no minimum daily utilization required. Each Owner is entitled to a specific number of overnights determined by their AirShare (1/8 AirShare = 21 overnights, 1/6 AirShare = 28 overnights).

Maintenance

Cost

The Monthly Management Fee includes all maintenance, taking the hassle and unpleasant financial surprises out of aircraft ownership.

Standards

In addition to required annual inspections, AirShares also performs 50 and 100 hour inspections on all aircraft in its fleet. As the largest operator of Cirrus aircraft, our Atlanta-based maintenance team schedules and monitors the maintenance of all AirShares aircraft nationwide.

Payments / Fees

Pricing details are shown below:

Annual Hours (AirShare)	Equity Payment	Monthly Flight Expense	Hourly Fee
75 hrs (1/8 AirShare)	\$62,500	\$1,800	\$0
100 hrs (1/6 AirShare)	\$83,000	\$2,400	\$0
125 hrs (1/5 AirShare)	\$104,000	\$3,000	\$0
150 hrs (1/4 AirShare)	\$125,000	\$3,600	\$0

The Monthly Management Fee covers fuel, oil, TKS fluid, hangar, insurance, maintenance, engine insurance, database updates, cleaning and most landing fees.

Contract Term and Completion Options

Contract Term

The current term of an AirShares Elite agreement is 2 years.

Contract Completion Options

- Sell the aircraft and distribute the proceeds among the Equity Owners.
- Owner Loyalty Program: Equity Owners pay the difference between trade-in value of the original aircraft and the retail cost of the new plane plus a \$1,500 management fee.
